Cirebon, West Java

SUMMARY

I am a highly enthusiastic Web and Mobile Developer and a 2024 **Software Engineering** graduate from **SMK Negeri 1 Cirebon**. I have a deep passion for programming, specifically in building seamless digital experiences. With strong dedication, I am constantly exploring the latest technologies, developing innovative projects, and refining my coding skills to drive meaningful impact.

WORK EXPERIENCE

Project Freelance (Website & Mobile Developer)

Dec 2024 - Present

- Developed and deployed SiPraKer (Sistem Praktek Kerja) and SKIP (Sistem Kontrol Izin Pelajar) as cross-platform mobile applications using Flutter, digitizing administrative workflows and achieving a operational efficiency.

Internship In PT Armada Jaya Transportindo (Website Developer)

Sep 2024 - Dec 2024

- Developed and deployed two distinct web solutions for PT Armada Jaya Transportindo using Laravel: a comprehensive ERP system to automate logistics, daily accounting, and PEB tax reporting and a dedicated professional landing page to enhance digital presence.

Internship In CV Arka Tech (Website Developer)

Ags 2023 - Sep 2023

- Developed and architected a suite of institutional-grade web solutions for CV. ARKA TECH, including a recruitment and HRIS platform for RS Sumber Hurip to optimize organizational workflows, and a digital Student Admission System (PMB) for STIKes Muhammadiyah Kuningan to automate candidate registration.

Vocational Internship (Mobile Developer)

Jul 2023 - Oct 2023

- Developed and engineered specialized management platforms at CV. ARKA TECH, including Jurnal APP, a digital professional logging system officially adopted by SMK Negeri 1 Cirebon for internship tracking, and AMANKAN, a fleet management and reservation system implemented by ESDM Kabupaten Cirebon to streamline government vehicle lending operations.
